

MyITstudy's ITIL certification courses give professionals the skills to apply ITIL concepts at their own workplace. This improves organizational standards, while ensuring that they pass the certification exams with ease.

Course features and benefits

Money back guarantee

We promise that professionals will pass the ITIL foundation exam in our classroom/live training programs or we refund their course fees, guaranteeing that they achieve their training objectives.

Best faculty

Our carefully chosen instructors are rigorously trained and prepared to deliver exceptional training quality to you.

99.2% pass rate

With a success rate of 99.2% on the first attempt, the MyITstudy classroom/live course is the preferred way for professionals to pass the ITIL Foundation Exam.

Free risk management certification

Approved by PMI, our online risk management course (worth \$150) is provided free as part of the ITIL classroom/live training programs.

Special offers and customized courses for corporates

Group discounts

We extend special discounts to organizations for batches of five or more. The discounts are progressive - more professionals, more savings for your organization.

Flexible delivery options

Classes can be conducted at your site or at a convenient MyITstudy venue. You can also opt for an instructor-led online virtual class.

Customized case studies

For a better understanding of the course concepts, we can also create customized case studies for your organization or industry.
