VMEdu

Targeting success
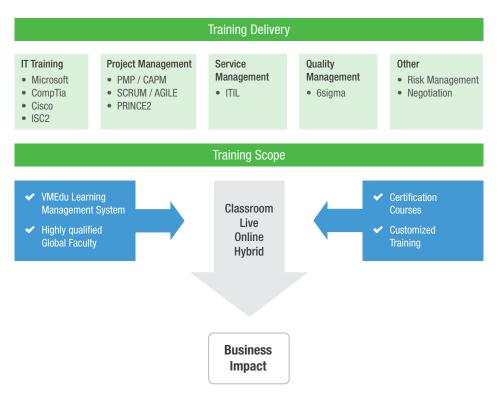

VMEdu is a global market leader in professional training services, specializing in Project Management, IT, Quality Management and IT Service Management domains.

To get the most out of technology investments and business - critical systems, it is important that organizations have people with the right skills. So having people with the right certifications is important in formalizing skill planning across teams and geographies,as well as demonstrating effective management and governance of global processes. VMEdu helps in skill enhancement by providing certification courses for IT, PMP, SCRUM, Agile, ITIL, Microsoft, CompTIA, Cisco and more. We can also customize various courses according to your requirements.
