VMEdu

Targeting success
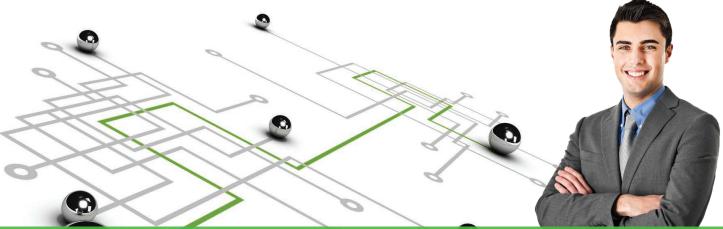

The VMEdu platform helps training providers and companies develop and deliver training solutions to enhance and enrich their students' and candidates' learning experience.

VMEdu's unique SaaS based platform offerings enable customers to streamline and improvise their training processes. Our systems are designed to be flexible and scalable to meet the requirements of our customers.

Platform features and benefits

Designed for the future

VMEdu's platform allows you to publish and deploy content anywhere, whether it's a tablet, mobile device or a computer.

VMEdu's platform is designed for all browsers to eliminate the headache of downloading or installing any software.

Pay per use

With VMEdu's platform as a service, you don't incur the high setup costs that other vendors charge.

VMEdu's SaaS based platform helps you to pay just for what you use with almost zero set-up cost and minimal oper   ational costs.

Flexibility & scalability

VMEdu's platform has course content that can be customized and delivered online via mobile, tablet or computers.

VMEdu's platform is being used by 400,000 students from 3500+ companies across 150+ countries.

High quality & best price

VMEdu is a leading training partner for Fortune 500 and Global 1000 companies.

VMEdu also enjoys excellent performance ratings from industry leading organizations.
